Tactical Solutions
in Business Solutions

Growing Business

The Tactical Elite's staff has extensive experience working with Strategic Foreign Government Industries, Financial Institutions and NGOs. All activities are coordinated through the company's proven Strategic Business Intelligence model to ensure clockwork precision.

Consulting

With over 30 years of experience in security services and special operations The Tactical Elite provides the most comprehensive security solutions for private, commercial and governmental entities and NGO's. Headed by it's Senior Security Consultant Mr. R. Lanza; a veteran of a world renowned Military and Governmental service, spearheads all risk assessment, security planning, implementaion, advisory and management.

Training

Prior to accepting a client security training project our Training Department first conducts a client survey to evaluate existing security measures and protocols. Process includes, but not limited to, security protocols security staff vetting risk assessment and disaster recovery. Process is conducted to identify strengths and weak-nesses in existing security measures adopted by the client, and help design a training program improving & exceeding client needs.

Executive Protection

The Tactical Elite provides executive protection training for (EPS) Executive Protection Staff who are involved in the close protection security business protecting VIPs and their assets, particularly when the client is travelling to troubled regions of the globe, or attending special important events that may attract unwanted attention. The Tactical Elite executive protection training team instructs EPSs on how to plan organize B execute comprehensive protection details for individual, corporate executives and government.
